EJEH IJEOMA GODSPOWER

JUNIOR FRONT-END DEVELOPER

Nigeria | +234 813 323 5527 | ejehijeoma197@gmail.com
Portfolio | GitHub

PROFESSIONAL PROFILE

Junior Front-End Developer with hands-on experience building web interfaces through personal projects and continuous learning. Uses React, JavaScript, TypeScript, Tailwind CSS, and Next.js to create responsive user interfaces and structured web applications. Familiar with REST API integration, Git-based workflows, and reusable component development. Seeking a junior role to contribute to practical products, collaborate with a development team, and continue growing as a front-end engineer.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, TypeScript

Frameworks & Libraries: React, Next.js

Styling: Tailwind CSS, responsive web design

APIs & Data: REST APIs, asynchronous data fetching

Tools: Git, GitHub, Visual Studio Code

SELECTED PROJECTS

Student Dashboard

React • TypeScript • Tailwind CSS

- Built a dashboard interface for presenting and managing student records.
- Worked with search and filtering, form-based student data flows, and reusable UI components.
- Applied responsive layouts and TypeScript data types to keep the interface structured.

Live demo: https://student-dashboard-analytics-seven.vercel.app/

Planets Data — TS Academy

React • JavaScript • Tailwind CSS

- Developed an interface for presenting planetary information in a structured, user-friendly format.
- Used React components and Tailwind CSS to organize the interface and support responsive presentation.

Live demo: https://planets-data-liard.vercel.app/

Personal Portfolio

React • TypeScript • Tailwind CSS

- Created a personal website to introduce my front-end development profile and showcase projects.
- Organized portfolio content into clear sections and built responsive layouts for different screen sizes.

Live demo: https://ijeomagodspower.vercel.app/

SELECTED PROJECTS — CONTINUED

Fintech Front-End Dashboard
Next.js • TypeScript • Tailwind CSS
- Built a fintech dashboard interface using Next.js and TypeScript.
- Structured the interface with reusable components and applied Tailwind CSS for consistent styling.

DEVELOPMENT EXPERIENCE

Independent Front-End Development
Personal Projects & Self-Directed Learning
- Develop front-end projects to practise component-based architecture, responsive interface design, and application structure.
- Apply React, TypeScript, JavaScript, Tailwind CSS, and Next.js in project work.
- Use Git and GitHub to manage and present code, and practise integrating applications with REST APIs.
- Continue strengthening problem-solving skills through independent research, implementation, and debugging.

EDUCATION

Federal University of Petroleum Resources, Effurun (FUPRE)
Computer Science | 2026–2030 (Expected)

CERTIFICATION

Front-End Development Certification — TS Academy
2026

CORE STRENGTHS

- Project-based learning and continuous improvement
- Responsive user-interface development
- Component-based development
- Problem-solving and debugging
- Independent research and self-learning
